

Eliminate SPOTS (Strategic Plans On The Shelf)

This module allows your organization to monitor, track, manage and report on strategic plans at both district and local school level.

A failure to plan is a plan to fail. Strategic planning is critical for any organization to successfully achieve its mission. Often organizations go through an elaborate strategic planning process only to find that the bigger challenge is in the execution of the plan. These elaborate plans get put in binders and tend to die sitting on the shelf. Organizations struggle with how to keep up with all aspects of the plan and either give up or do so through a labor intensive process using word processing and spreadsheet documents and graphs.

Now, monitoring, tracking, managing and reporting on strategic plans has never been easier. With eBOARD's Strategic Plan Module, organizations can effectively communicate plans to all stakeholders and allow employees to focus on their areas of responsibility while understanding how their work fits into the overall plan.

"I have been very privileged to have had the opportunity to publish the Richmond County School System Strategic Plan using the eBOARD Strategic Plan Module. This technology has hastened our quest to be more transparent. It further serves to show the relevance of our strategic goals and plan initiatives with their connection to the performance measures by which assessed. We are very excited our individual school improvement plans will be added in the coming year."

– **Joslyn Fields**, School Improvement Coordinator
Richmond County Schools

OUR MISSION

The mission of eBOARDsolutions is to achieve sustained excellence in leadership and governance by providing innovative technology.

Strategic Plan Module FEATURES

Unlimited Plan Types – Track District/Organization-wide plans, school improvement plans, departmental plans or key projects. Plans can be marked either public or private.

Plan Overview – clearly communicate the contents of the plan to all stakeholders through a continuous improvement process.

Plan Detail – Easily review and update the contents of the plan.

Item Fields – designed to allow districts and school to better align their plans to fields used in state school improvements plans and district accreditation such as Artifacts, Evidence, School Keys Strands, and Progress Report.

Item Visibility – Items can be marked for public, private or limited views to make sure the right information is displayed to the right people.

Filter – Filter through the contents of the plan to see information according to need i.e. by department/group, staff member, status, priority, due date, year, etc.

Performance Measures – Enter specific performance measurements and targets that will be used to track items within the plan. Comments can also be posted to provide explanation of actual results.

Strategic Dashboard – Graphical report on the progress of the strategic priorities.

Balanced Scorecard – Measures progress of performance objectives within each goal and allows for management of performance.

Goal Alignment – Quickly see what meeting items and board policies have been aligned to the plan. Requires subscription to the Meetings and Policy Modules.

Print Capabilities – Multiple print options. Plan outline, item, filtered view or entire plan packet.

Advanced Reporting Options - such as as Plan Outline, Calendar Report, Performance Measures and Custom Reports. Some reports can export as excel files.

Download Plan – Download an entire copy of the plan for access when not online.

Search – Search through all plans with eBOARD's advanced search feature.

BENEFITS

eBOARD's Strategic Plan Module assists with the execution of a strategic plan and eliminates SPOTS by:

- Organizes all the information about the plan in one central place
- Aligns all operations around the strategic direction of the organization
- Connects school and department improvement plans to the organizational strategic plan
- Clearly communicates the plan to all stakeholders
- Provides staff a central location to update items that are assigned to them
- Filters through the plan to view items by department/group, staff member, status, priority, due date, year, etc.
- Reports graphically on the status of the strategic priorities
- Demonstrates accountability, transparency and collaboration in board governance
- Keeps the focus on what is important through alignment of board policies and meeting agenda items with the plan
- Eliminates redundancy and reduction of work loads

MODULES

Since eBOARD is a modular based system, pick the most critical modules to meet needs today, yet maintain the flexibility to grow with the system.

eBOARD Modules include:

Strategic Plan – Monitor, track, manage and report on the organization's strategic plan to all stakeholders

Evaluation – Enhance, align and streamline governance and leadership evaluations and assessments.

Meetings – Streamline agenda preparation and enhance the effectiveness of all meetings (not just board meetings)

Policy – Publish policies, regulations and exhibits for easy access by all stakeholders

Communications – Improve communications with all stakeholders

Documents – Build an online library for easy access to important documents
